

## Demonstrate Accountability

The easy-to-use Kids Care Center reports provide information that will help answer important questions about how your program is operating.

- What are the program staffing ratios?
- Is your staff qualified, diverse and taking advantage of professional development opportunities?
- Are you effectively tracking staffing costs and providing timely, accurate bills to realize important parent fees?
- Kids Care Center also provides vital information needed for administrative reports, grants, development of funds, and community outreach.

### It's as easy to use as the Internet.

*Kids Care Center was developed by Dynamic Enterprise Solutions, developers of web-based solutions for businesses, non-profits, and human service organizations, in partnership with the Local Investment Commission, which operates a 50-site out-of-school program in Kansas City, Mo.*

*For information on features, pricing, or technical issues contact Dynamic Enterprise Solutions at (860) 204.8102 or visit [www.kidscarecenter.com](http://www.kidscarecenter.com).*

## Product Pricing

In order to maintain affordable pricing for businesses, nonprofits, and human services organizations alike, Dynamic Enterprise Solutions (DES) offers Kids Care Center as an annual subscription based service. License costs are based on the number of locations the licensee provides programs at as follows:

For organizations or businesses that provide programs at more than 15 locations, supplementary location licenses are available. Please contact DES for more detailed pricing.

### Each license includes:

- Unlimited number of user accounts
- No limit on the number of students tracked
- Capability to define look and feel to match your organization's or business's look and feel
- Capability to define and track an unlimited number of performance measures/outcomes
- Capability to define nomenclature for Kids Care Center terms that are common to your organization
- Capability to define user groups and group access for the many Kids Care Center features
- Immediate access to software fixes/enhancements

## **Kids Care Center**

**Running a childcare program can be immensely rewarding.**

However, providing a well-rounded program can be demanding - tracking attendance, managing billing, and maintaining licensing standards are among many tasks a program must accomplish.

Help is here.

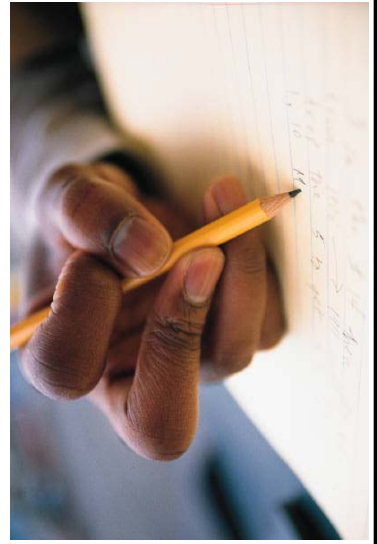

**Kids Care Center** is an affordable, easy to use, secure internet-based application that can help you operate an effective childcare program - and do so without the need of expensive computer hardware and software.

This full-featured application can help you get the work done - quickly, easily, and intuitively without extensive staff.

**Kids Care Center** empowers program administrators with the tools they need to manage programs without the headaches of maintenance, support and installation.

If you can surf the net, you are ready to use

**Kids Care Center.**

## **Kids Care Center Provides:**

### **Child and Parent Information**

Easy-to-use online enrollment forms that include critical information - name, address, phone, children's photo and authorized pick up information.

### **Billing**

Create bills (weekly or monthly) including payment histories that are produced from a central location and available online at delivery sites. Produce receipts so parents can deduct child care expenses from their federal taxes.

### **Staffing Costs**

Track staff hours, wage rates and labor costs. Calculate staffing ratios for your program through easy to use online reports.

### **Quality Programs**

Track a child's participation in activities, events, clubs, or field trips.

### **Program Training**

Track important staff health and safety issues - health requirements, child abuse and neglect background checks, and other required training. Track attendance at training and educational sessions including credit hours earned, clock hours, and other information needed for licensure and professional development.

### **Evaluation and Program Improvement**

**Kids Care Center's** import and export features allow data collected through the system to be combined with other data (grades, attendance, and other information) for those interested in program analysis and evaluation.

### **Reporting**

**Kids Care Center** provides high quality reports that are available online. All reports can be viewed online or saved as Microsoft Excel files.

### **Other features**

**Kids Care Center** will easily produce information that you need to effectively run your program including the small things that can make your job easier and your program better.

- Template enrollment forms
- Birthday lists
- Student ID cards
- Rosters including child photos
- Mailing lists
- Calendar of events
- Inventory lists

### **Technical Information**

**Kids Care Center** is an internet-based application that collects data through a user-friendly web browser interface (Netscape or Internet Explorer).

**Kids Care Center** uses industry-standard security features including Secure Socket Layer data transmission, user log in, and security audit trails.
